

Being Brilliant in Your Early Teaching Career

This cross-phase development programme will equip your inexperienced teachers with the essential skills required to be the very best they can be in their early teaching career. This programme is delivered in partnership with some of the most acclaimed personal development speakers nationally and will provide delegates with an opportunity to challenge their current thinking, evaluate their approaches, and facilitate debate with peers.

Throughout the programme, delegates will be encouraged and supported to develop valuable peer support networks. These networks will be supported to develop classroom practice and link to the range of resources and opportunities provided by the Trust.

New for 2017/2018. The programme will be enhanced with a variety of online CPD designed to reinforce learning from ITT and support NQTs in meeting the Teacher Standards. This programme will include input from Chimp Management, The Art of Brilliance and Floyd Woodrow alongside additional sessions from Will Ord and staff from the BLT.

All teachers enter the profession to be the best they can be. But to be world class you have to dare to be different. It can be hard to take risks when the stakes are high. This programme will empower delegates to take risks, build the personal characteristics to lead and thrive throughout their teaching careers.

Days 1 and 3 – The Art of Brilliance Across days 1 and 2 of the programme the Art of Brilliance will explore: from ITT training to flying solo; discipline; eye-catching lessons; pastoral care; working with colleagues; dealing with parents and that ‘magic ingredient’. Everyone has the ability to be brilliant. These sessions will help delegates realise this and give clear strategies on how delegates can be the best versions of themselves.

Day 2 – Chimp Management This session will provide delegates with a full day to develop their understanding of the mind and learn how to recognise and manage unhelpful emotions and emotional responses. During the day delegates will: Learn how the mind works through a simple and practical approach; Understand self and relate to others better; Learn how to manage difficult conversations; Learn how to get the best out of challenging relationship and Understand how to manage stress and establish a work life balance more effectively.

Day 4 – Floyd Woodrow (Compass for Life) This session will focus on planning for the future. Delegates will be provoked to consider their short, medium and long-term plans in education. Aligning plans with the compass cardinals delegates will be supported in identifying their ‘super north star’ and their true passion for education. This session will not only support them identify their next steps but will empower them to keep clear focus on what really matters in both their personal and professional lives.

Event code NQT/18/001
